Strongly Disagree	0	0.00	

Comments

Response

Availability of doctors was poor. Bedside manner not so great either.

Response

NURSE JILL SMITH WAS EXCELLENT!!

Procedures were explained, but getting test results took unusually long.

My only complaint is the doctors' bedside manner and ability to answer questions on my level.

The doctor only visited once. I had questions the nurses couldn't answer and didn't get the attention I needed.

Comments

Response

The nurses were fantastic! Give them all raises!

FORTUNATELY I WAS IN AND OUT IN A DAY. TESTS TOOK FOREVER!

The nurses + doctors really got to know me and my daughter.
Thank you for making something so unpleasant as good as possible.

The staff was excellent. Nurses were so attentive to my needs.
Thank you!

Comments

Response

All in all good. Questions could have been addressed more thoroughly.

As a frightened parent of a 4 year old patient, I felt very well taken care of.

NURSES SEEMED TOO BUSY TO PROVIDE QUALITY CARE + ATTENTION.

The doctors were very rushed
